

Experiment Canvas

Title: _____

Desired Learning/Background

What is the context?
How are we at this point?
What is the big picture?

Falsifiable Hypothesis

If/then assertion.

Experiment Details

What actions, by whom, over what period of time. What qualitative and quantitative data will we collect?
How often will we retrospect? How will we know we are done?

Safety & Recovery

What about your experiment method protects you from harmful side effects? How will you undo the experiment upon completion or if you discover it is no longer safe to run?

Experiment Results

Describe the results from the experiment. How do they compare to your expected results?

Learnings & Next Steps

What did you learn? Was your hypothesis proven? If proved false, re-state hypothesis in the negative. What will you do now--conduct another experiment, expand on this one...?
